

CENTRE NATURE ET PAYSAGE

Le parc naturel d'importance nationale Pfyn-Finges est un haut lieu de la biodiversité et de la nature en Suisse. Il propose des activités toute l'année.

The nature and landscape centre of **Salgesch** is the administrative headquarters of the Nature Park. The 300-year-old commandery has been renovated and connected to a building that meets Minergie standards. The latter receives the reception centre, offices and shop of the Natural Park. An old barn houses the multi-purpose room and library. Finally, the guides' office is located in the guard's tower, located to the east.
